

Table I-A CCWE identifies the non-RCRA auto shredder wastes and the concentrations of their associated hazardous constituents which may not be exceeded by the extract of the waste or treatment residual for the allowable land disposal of such waste or residual.

TABLE I-A CCWE

| Auto Shredder Wastes    | Concentration (mg/l) |
|-------------------------|----------------------|
| Cadmium                 | 1.0                  |
| Chromium (VI) Compounds | 5.0                  |
| Chromium (total)        | 560.0                |
| Copper                  | 25.0                 |
| Lead                    | 50.0                 |
| Mercury                 | 0.2                  |
| Nickel                  | 20.0                 |
| Zinc                    | 250.0                |
